INSTRUCTIONS

- A. SUMMARY OF PROPOSED PROJECT.** Describe the proposed project in the space provided below. Include the proposed use of each building and all other land uses. This description is required in addition to the Documented Impact Analysis and is not considered a substitute. Should additional space be required please type or print on a separate piece of paper.

- B. DOCUMENTED IMPACT ANALYSIS.** Each application must contain a typed or printed documented analysis of the impact of the proposed rezoning with respect to the following matters.

(1) Compatibility with comprehensive development plans; timing of development:

The Bureau shall examine the proposal to determine whether it is in accord with comprehensive development plans in their 15-year, 5-year, and 1-year forms. In its findings in this regard, it may report that the proposal is compatible or incompatible with all such plans, or that while the change is in accord with those of longer range it would be premature in the light of the 1-year or 5-year comprehensive development plans. The Bureau shall not recommend any change not in accord with adopted comprehensive development plans but may, where it sees fit, recommend changes in such plans, following which, if such change in plans are officially adopted, the zoning change may be reconsidered without prejudice and without a new application if an application is involved.

- (2) Availability of and effect on public facilities and services/referrals to other agencies:** The Bureau shall consider and report on the availability of public facilities and services and the effect the proposed change would have on demands for public facilities and services in the area in which the change is proposed or generally. Such facilities and services include but are not limited to water supply, sewage, or drainage, transportation, schools, fire and police protection, and solid waste collection and disposal.

- (3) Availability of other land suitable for proposed use; effect on balance of land uses:** The Bureau may consider the availability of other appropriate land already zoned for the proposed use, general and in the area of the proposed change. The Bureau may also consider whether generally, or in the area of the proposed change, the change would have adverse environmental effects on the balance of land uses by removing land from a category for which it is suited and for which there is a greater need to a category for which the public need is lesser.

- (4) Effect on character of the neighborhood:** The Bureau shall consider the effect of uses permitted under the proposed change on the surrounding neighborhood and shall report any substantial probably adverse influences on desirable living conditions or sustained stability, or any tendencies toward blight and depreciation likely to result from the change.

- (5) Suitability of proposed use:** The Bureau shall consider whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

- (6) Effect on adjacent property:** The Bureau shall consider whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property.

- (7) Economic use of current zoning:** The Bureau shall consider whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.

- (8) Tree Preservation:** The Bureau shall consider and report on whether the proposal is in accordance with the City of Atlanta's policies related to tree preservation as adopted in Section 10-2033, Policy, Purpose and Intent of the City of Atlanta Tree Ordinance.

- C. CONDITIONAL ZONING.** If the request is for zoning for new development, submit fourteen (14) copies of the site plan prepared by a State of Georgia registered architect, landscape architect, engineer, or planner holding the AICP designation. Site plans must be folded to 11" x 14". All site plans shall be sealed by the professional preparer and shall show the scale, north arrow; the location of streets and street names; sidewalks; existing and proposed buildings and their square footage, heights, and floor area ratio; parking spaces, loading areas, and number of parking spaces must also be shown. All plans for residential development must include, on the site plan, a summary of calculations in accordance with the Land Use Intensity System (see Chapter 8 of the Zoning Ordinance). For complete information regarding site plans, refer to the "Site Plan Requirements" attachment to this application form.
- D. PLANNED DEVELOPMENT (PD) DISTRICTS.** If your request is for PD District Zoning, you must comply with the requirements of Chapter 19 of the Zoning Ordinance and with the appropriate regulations for Planned Development Housing, Office-Commercial, Mixed-Use, or Business Park as appropriate. **Certification of a PD Zoning pre-application conference is required.** Submit *Attachment 7*.
- E. PROPERTY DESCRIPTION.** A copy of a recent plat of survey prepared by an engineer or land surveyor registered in the State of Georgia must accompany each application. In addition, a written legal description must be submitted. In cases involving more than one contiguous property, a consolidated legal description of the property must be submitted.
- F. HOUSING APPLICATION.** If the rezoning application contemplates the construction of one or more residential units, complete the attached Atlanta Public School form, *Attachment 3*.
- G. DEVELOPMENTS OF REGIONAL IMPACT.** If your application meets the thresholds shown on *Table II (Attachment 4)*, you must contact the Bureau of Planning for further instructions.
